**A FILM  
YOU MUST  
SEE!**

Perhaps only once in a lifetime does a vehicle of communications come along of such magnitude to warrant our unqualified recommendation to the profession. The Swissedent Foundation's sound slidefilm in color—presenting in detail the complete Swissedent concept—is just such a vehicle.

We assure you that this film program can be of utmost importance to increasing your practice. One of the reasons for this, certainly, is that it will enable you to provide dentures of unparalleled esthetics. But of equal importance is the fact that it will literally make patients your fervent advocates among their friends and neighbors.

Whether or not you have attended the Dentogenic Seminars, you owe it to yourself to see this film program. Simply complete the reservation form below.

*Now...the facts why you should  
prescribe **Luxene!***

**"Clinical Observations of Number  
of Fractures of Acrylic and Modified  
Copolymer Vinyl Dentures"**

—William F. D. Grant, D.D.S.\*

**D FINDINGS OF CASES STUDIED  
OVER A FIVE-YEAR PERIOD**

Incidence of breakage: 100 out of 695 acrylic cases (14.4%).  
11 out of 695 Luxene cases (1.6%).

Six of the 11 Luxene repairs were due to tooth fracture, leaving  
only 7/10 of 1% of the dentures studied with base material failure.

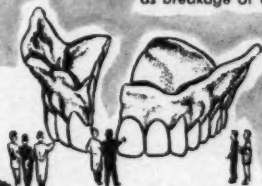

The rate of fracture of acrylic was 12 times as great as for Luxene.

**ADDITIONAL STATISTICS ACQUIRED  
THROUGH QUESTIONAIRES**

Of 2,385 Luxene dentures made in the past four years at the  
dental division of the Henry Ford Hospital, only 12 required  
repair, yielding a breakage rate of only 0.005.

**CONCLUSIONS OF THE STUDY**

"From comparison of these figures it can be seen that the vinyl  
resin dentures as studied performed in a superior fashion insofar  
as breakage of either base material or teeth were concerned."

## IN TODAY'S BUSY PRACTICE

There are just so many hours to see your patients — no additional hours to see more patients. Now the ratio of population to dentist is 1900 to one. In the next few years it will be well over 2000 to one. Vitallium restorations can conserve your chairtime, particularly if you have been experiencing extra-long appointments, adjustment appointments, repair appointments or remake appointments. To save every second of your valuable chairtime, prescribe Vitallium quality service.

## **Installation of Officers May 16, 1961**

**A**nother outstanding year in the long succession of banner years will be written into the history of the Chicago Dental Society on June 1st. It has been a year of many innovations and the realization of many of the dreams which James Lynch brought to the presidency. The Midwinter Meeting saw many new ideas become realities. The most important of these was the Children's Dental Health Day which exceeded the fondest hopes of the most optimistic and which will leave an indelible memory on the citizens of this city. Our monthly programs too were well-attended and saw again imaginative and bold planning. For Jim Lynch's leadership and dedication to the job at hand we would express our very deep appreciation. To his loyal officers, board members and dedicated committeemen, we as a society say, "Thank you."

To President Jim Lynch, Secretary Bob Tuck, Vice-President Rudy Grieff,

Treasurer Paul Kanchier, President-elect O. E. Scott, and to Directors Art Duxler, Ed Kritzke, Joe Ulis, Russell Johnson, Charley Cosgrove, Ben Jostes, Harold Epstein, and Larry Johnson, we would express our grateful appreciation for a job well done.

To Rudy Grieff, Paul Kanchier, Art Duxler and Joe Ulis, who retire from active leadership, our thanks for your loyalty, your dedication and industry in the service of your Society.

It will be Dr. Lynch's pleasant duty to install O. E. Scott as President, Edward F. Kritzke as Vice-President, Gerson M. Gould as Secretary, and Robert L. Kreiner as Treasurer, Casimir J. Rogalski as Director from the Northwest Side Branch, Robert N. Price from West Suburban Branch, and Paul H. Brown from North Side Branch. Robert F. Tuck will be installed as President in 1962. To all we would wish the very best for a most successful year.

**Dr. O. E. Scott, President**

mir J. Rogalski as Director from the Northwest Side Branch, Robert N. Price from West Suburban Branch, and Paul H. Brown from North Side Branch. Robert F. Tuck will be installed as President in 1962. To all we would wish the very best for a most successful year.

## President

Ascending to the presidency is Dr. O. E. Scott who for the past year has served the Society as President-elect and who comes to the presidency extremely well-qualified by years of dedication in the affairs of organized dentistry. Scotty, as he is known to his intimates, rendered outstanding service as the Director from the North Suburban Branch to the Chicago Dental Society. While on the Board he served on the very important Finance Committee and, in his third year on the Board, as its chairman. He was one of the original members of the Commission on Dental Health Education and helped formulate many of its basic policies. He has served on many committees of the parent society and always with distinction. In the North Suburban Branch he has been a member of many committees, he was branch Secretary, Treasurer, Vice-President, President-elect and President, and in each instance gave outstanding leadership. He has served the Evanston Dental Association in all its elective offices and here again gave dedicated leadership. In the Illinois State Society Scotty has served on several committees, the most recent being the Group Dental Health Care Plans Committee whose intensive studies have helped crystallize the thinking for the preparation of the enabling legislation introduced into the present session of the legislature.

In civic and church affairs Scotty has been equally active and given leadership. In his church, the First Methodist of Evanston he is a member of the Official Board, he has been active in school affairs in Evanston and President of the Evanston Country Club. He is a member of Westmoreland Country Club, Evanston University Club, American Denture Society, the Odontographic Society of Chicago, Federation Dentaire Internationale and Delta Sigma Delta fraternity.

Scotty was born in South Dakota where he received his grade and high school training after which he enrolled at Northwestern University Dental School from which he was graduated. He has

**Dr. Edward F. Kritzke, Vice-President**

practiced in Evanston for all but three years of his professional life. Sharing his very busy and active life is his good wife, Gladys, who like Scotty is active in club, church and civic affairs and is equally dedicated. In their spare time they enjoy gardening and keeping their very lovely home in Wilmette a place of beauty and a haven of tranquillity.

To Scotty and his corps of workers we would wish all that is good, a most successful year, and the realization of all his dreams.

## Vice-President

Our Vice-President for the year will be Dr. Edward F. Kritzke who is no stranger to the official family, having served with distinction as Director to the Chicago Dental Society from the West Suburban Branch for the past three years. Ed was born and received his early education in Chicago. He enrolled at the Chicago College of Dental Surgery, Loyola University and was graduated in 1929. Since passing the State Board he has practiced in the Cicero area where he maintains a very active general practice. He has long been active in organized dentistry hav-

ing served on many committees and as Secretary, Treasurer, Vice-President, and President of West Suburban Branch as well as its Director.

In the parent society he has been a member of the Membership, Limited Attendance Clinics, Health and Education Committees, and was chairman of the Projected Clinics Committee. For the last three years he has represented the West Suburban Branch very well as the Director to the Chicago Dental Society.

In the Chicago College of Dental Surgery, Loyola University Alumni Association, he has held all elective offices and at the last Homecoming was elected President-elect. Ed is a member of Psi Omega Fraternity and the Oak Leaf Study Club.

In addition to his many dental interests he has found time to take an active part in civic and community affairs, as well as in his church in Cicero. Here he lives and shares his very busy life with Mrs. Kritzke and their lovely daughter, Marge.

#### Secretary

Gerson M. Gould, our new Secretary, is no stranger to the working members of the Chicago Dental Society for he has

**Dr. Gerson M. Gould, Secretary**

**Dr. Robert L. Kreiner, Treasurer**

long been active in Society affairs. Following graduation from the Chicago College of Dental Surgery in 1917, he joined the Society and became a member of the Northwest Side Branch. Over the years he has held every branch office from treasurer to president, in addition to serving on many committees and acting as Program Chairman under three administrations. Active in the Loyola Dental Alumni Association, here again he has held all offices from treasurer to president and served on various committees. Gerson was the first chairman of a Midwinter Meeting Projected Clinics program, and for subsequent Midwinter Meetings has headed a Table Clinics committee, Dinner-Dance committee, was a member of the committee for Children's Dental Health Day, chairman and moderator of the Dental Health Nurses Panel, and chairman of the High Speed panel at the 8th St. theatre. Gerson has also headed the Legislation and Law Enforcement Committee, been chairman of School Dental Health Education, a member of the Dental Advisory Committee of the Board of Health for the City of Chicago, chairman of the Program for Dental Health Education on the High School Level at Niles Township High School,

**Dr. Robert F. Tuck, President-elect**

and past-President of a number of civic, social, charitable and philanthropic organizations.

Gerson was born in Chicago and received his early education in the Chicago schools. He has his office on the near northwest side, and with Mrs. Gould also lives in the city. Their son, Arthur, an attorney, and his wife who, incidentally, is a dental hygienist, live in Georgetown, Washington, D. C., where he is in the Appellate Court in the Justice Department. Daughter Gloria with her husband and two children make their home in London, Ontario, Canada.

#### **Treasurer**

It is a very real pleasure to welcome back to the official family Dr. Robert L. Kreiner as the Treasurer of the Society for the coming year. Bob received his early education in the schools of Iowa and is a 1929 graduate of the College of Dentistry of the University of Iowa. After

graduation he came to Chicago in 1929 to enter general practice and with the exception of thirty-nine months spent in service as a Captain in the U.S. Army Air Force during World War II, he has been in Chicago.

He has served his branch, Kenwood-Hyde Park, in all offices and in 1951 as President. He was then elected to the Board of Directors of the Chicago Dental Society where he served with special effectiveness for three years. He has been active on many committees of the parent society and has served as Chairman of the Entertainment Committee, on the Prosthetic Service Committee, and as Chairman of the first Midwinter Meeting Breakfast Conferences. In 1957 he was General Chairman of the Midwinter Meeting and rendered outstanding service. More recently he was a member of the Public Relations Commission and its chairman in 1960.

In the State Society Bob has served on a number of committees and presently is Vice-Chairman of the Program Committee. Next year he will be the Program Committee Chairman, under Joe Zielinski. He has been an alternate and delegate to the American Dental Association from the Illinois State Dental Society. He is also an Associate Editor of the *Illinois State Dental Journal* and writes the monthly column titled "Let's Take a Minute."

Dr. Kreiner is a member of the Council on Dental Research of the American Dental Association and is currently collating and editing the *1961 Reviews of Dental Research*, a Council-sponsored project.

In civic affairs Bob has been equally busy serving as president of the Kenwood Chamber of Commerce, president of the Woodlawn Business Men's Association, Vice-President of the Shore Line Lion's Club and is a Past-Master of the West Englewood Home Lodge #1074 A.F. & A.M. He is also very busy in the affairs of his church, the Avalon Park Community Church.

His many activities are shared by his charming wife, Olive, their daughter and

son-in-law, Mr. and Mrs. Dan Kisslinger, and three very lively grandchildren, Scotty, Stevie and Mary Beth, of Arlington Heights.

We are sure that Bob's vast experience in administrative affairs will prove useful in his job as Treasurer.

### President-Elect

Dr. Robert F. Tuck, the new President-Elect, advances to this office to be installed next May as our President. He is just completing a very strenuous year as Secretary of the Society and this experience should prove most valuable to him in preparation for his presidency. This, added to his experiences as Vice-President and Treasurer, should come in very handily for the many problems which confront the president. Bob was born and raised in Chicago and it was here that he received his grade and high school training. He is a graduate of Northwestern University Dental School, Class of 1941. In 1947 he was awarded his Master-of-Science degree from Northwestern. He is a member of Omicron Kappa Upsilon honorary scholastic fraternity and Xi Psi Phi social fraternity. After graduation he taught at his alma mater until his service in the Navy where he served with distinction and honor. He is an active member of the Naval Reserve with rank of Captain. Bob is a member of the American College of Dentists and has served the Illinois Section as Secretary and Chairman.

Dr. Tuck has been very active in the affairs of organized dentistry and in the administrative phases of the dental society. He has held all elective offices of the West Side Branch including the presidency. In 1953-54 he served as General Chairman as well as Program Chairman of the Midwinter Meeting and did an extremely effective job. In 1956-57 Bob was Monthly Program Chairman and again did an outstanding job. All this experience should prove very valuable.

Although Robert still practices at 4010 W. Madison, he has sought the wide-open spaces of Lombard for his residence and

joined the multitude of commuters who have a good chance to read the morning and evening papers while riding the train. He now has all the additional suburban experiences of larger lawns and more gardens and more snow to shovel. Most of all this gives growing room to his very lovely family. Sharing in all these suburban activities are his lovely southern belle, Edna, their teenaged daughter, Carol, and a couple of very energetic twins, Charles and Bob, Jr. In Lombard the Tucks are very active in church and civic affairs.

### Directors

The new Director to the Chicago Dental Society from the North Side Branch is Dr. Paul H. Brown, who succeeds Art Duxler. Paul was born in Chicago and received his early education in the public schools. He did his pre-dent work at Wright Junior College and North Park College, then entered Chicago College of Dental Surgery, Loyola University, where he was the recipient of the Omicron Kappa Upsilon Key and was graduated with the Class of 1941, *cum laude*.

Dr. Brown interned at Forsyth Dental Infirmary in Boston, returning to Chicago in 1942 to enter general practice. He taught at his alma mater as Assistant Professor of Dental Materials. He is a member and past-President of the Illinois Chapter of Alpha Omega Fraternity, also served on the National Board of Regents and as Chairman of the Big Brother Plan which he founded. For the latter service he was awarded the Alpha Omega Certificate of Merit. For the North Side Branch, Paul has served on many committees and as Librarian, Director and Branch Correspondent. For the parent Society he has been Chairman of the Membership and Election Committees, as well as having served on many other committees. He is a past-President of the Uptown Dental Forum, was co-Chairman of the Combined Jewish Appeal and Vice-Chairman as well as North Area Chairman of the Loyola University

Director and Chairman, Department of Dentistry, Michael Reese  
Hospital and Medical Center.
- 12:00 Noon LUNCHEON. Stouffer's Restaurant - Prudential Plaza  
Those in attendance will be guests of the American Cancer Society.
- 1:15 P.M. "RADIATION THERAPY IN MANAGEMENT OF ORAL  
MALIGNANCY"  
Erich M. Uhlmann, M.D.  
Director, Tumor Clinic and Attending Radiotherapist, Michael Reese  
Hospital; Assistant Professor Radiology, Northwestern University  
School of Medicine.
- 2:00 P.M. "PROSTHETIC REHABILITATION"  
Stanley D. Tylman, D.D.S.  
Professor Prosthetic Dentistry and Head Department Crown and  
Bridge Prosthodontics, University of Illinois College of Dentistry.
- 2:30 P.M. INTERMISSION
- 2:40 P.M. "SURGICAL TREATMENT OF CANCER OF THE HEAD  
AND NECK"  
Wayne B. Slaughter, M.D., D.D.S.  
Professor of Surgery and Chairman Department of Plastic Surgery,  
Stritch School of Medicine, Loyola University; Consultant and Head  
Department of Plastic Surgery, Hines Veterans Administration Hos-  
pital.
- 3:30 P.M. ROUND TABLE PANEL DISCUSSION  
Walter Wm. Dalitsch, M.D., D.D.S., Moderator  
Doctors Tiecke, Slaughter, Uhlmann, Levy, Zur, Tylman, and Rogers.

Application may be made to: JOHN A. ROGERS, M.D., American Cancer So-  
ciety, Illinois Division, Inc., 139 N. Clark Street, Chicago 2, Illinois.

# Editorial

## You Are Wanted!

*You are wanted* to give your very best to meet another challenge to the health and welfare of the people of the State of Illinois. You will be needed to give every assistance possible in the fight against the practice of illegal dentistry and the dangers of sublevel dentistry. You will be notified individually by the Illinois State Dental Society, if you are a legislative contact man, and be given instructions as to how to proceed. If you are not a contact man, PLEASE do not pester your State Representative or Senator personally or on the telephone, but do write him a letter to let him know your stand. Before you do this, gather all the information possible on the matters under consideration. There is nothing more effective than an informed, active dental profession. So determine NOW that you will learn all the facts before you write. You and your way of practice are due for a rude awakening if the recent recommendations of the Medical Practice Act Commission come to pass.

Every two years between the opening of the General Assembly and its adjournment, for as long as the writer can remember, there has been a clarion call to do battle for the health and welfare of the people of Illinois. For the past twelve or fourteen years it has been the illegal practice of dentistry by the so-called denturists that has been the source of concern. Each legislative year for the past twelve years has had bills introduced designed to permit untrained and unqualified persons to practice dentistry. In this respect 1961 is no different, for we are again called on to protect the health of our people and to maintain the high standards of dental practice.

On April 28th, the Illinois Medical Practice Act Commission, which deals with the legislative matters governing the practice of the healing arts professions, met and considered the report of its sub-Committee which conducted hearings at the request of the Illinois Society of Oral Prosthetists, Inc. (Denturists). The report of that sub-Committee made substantially the following recommendations to the whole committee (now quoting from the letter of May 1, 1961, from the Joint Commission on Legislation and Law Enforcement):

1. The sub-Committee recommended that two of our bills *not* be approved. These two bills had to do with mandatory jail sentence for second and subsequent convictions . . . and an assessment of injunction suit costs to the loser in an injunction case.
2. The several technical amendments proposed by the Illinois State Dental Society were approved.
3. The sub-Committee recommended that Oral Prosthetists be permitted (licensed) to contract directly with members of the public, make repairs, construct full and partial dentures provided a dentist took the impression and did the final fitting and delivery.

The sub-Committee further felt that there is no relationship between public health and the contractual services of dental technicians.

The sub-Committee recommended that 7 years of experience as an illegal dental technician would qualify said technician for registration (licensure) without benefit of an examination.

The sub-Committee recommended these Prosthetist items only in a general way and for any bills to be drafted there would be considerable latitude in regard to details.

(Continued on page 22)

## Chicago Dental Society Golf Outing Plans . . .

The Chicago Dental Society Golf Outing will take place on June 21st at the Glendale Country Club—the same location as last year.

An innovation is planned for this year—a run-down tournament among the eight Branches of the best golf team submitted. Branch committee chairmen will have more information on this later.

Also, we plan to have a bridge tournament, or whatever cards non-golfers would like to play, so that everyone may participate in one full day of recreation and fellowship.

John E. Boyle, *Chairman*

All Chicago Dental Society members, guests, and allied dental groups are cordially invited to

### WEST SIDE BRANCH *Annual Golf Outing*

# News and Announcements

## **SHAILER PETERSON APPOINTED DEAN AT TENNESSEE**

Dr. Shailer Peterson, Assistant Secretary for educational affairs of the American Dental Association, has been appointed Dean of the University of Tennessee College of Dentistry effective June 1st.

The announcement was made jointly by Dr. O. W. Hyman, Vice-President of the University, and Dr. Harold Hillenbrand, secretary of the American Dental Association.

The University of Tennessee dental school is the third largest in the nation, graduating approximately 125 students a year.

Dr. Peterson has served in many capacities, the last being Secretary of the Council on Dental Education of the American Dental Association where he has done outstanding work with the dental aptitude testing program in which the 47 dental schools in the country participate.

We wish for Pete everything that is good and we are very sure that he will be most successful in his new venture. Good luck!—*E. Ebert.*

## **TV MAILING NOT A SOCIETY EXPENSE**

The recent mailing to our members of notices of the closed-circuit television presentations on April 26th was done at the expense of the sponsors of the program. No part of the expense involved was borne by the Society or its membership in any way.

## **1962 MIDWINTER MEETING**

The 97th Midwinter Meeting of the Chicago Dental Society will take place February 18, 19, 20, and 21, 1962, at the Conrad Hilton.

## **DENTAL TRADE GROUP NAMES EXECUTIVE SECRETARY**

Edmund Wellington, Jr., Washington, D. C., has been named executive secretary of the American Dental Trade Association, it was announced April 20 by Henry M. Thornton, the Association's president.

Mr. Wellington succeeds Wilmoth C. Mack, who resigned to become president of the S. S. White Dental Manufacturing Company. Mr. Wellington comes to the American Dental Trade Association, which was established in 1882 and is one of the nation's oldest trade groups, from the Electronic Industries Association where, since 1956, he has been staff director of the Military Products Division. Prior to that time he had been assistant to the executive director of the National Federation of Textiles, Inc.

An Army Air Force veteran, Wellington was graduated from the University of Florida in 1948 and later took graduate work at Georgetown University.

## **UNIVERSITY OF ILLINOIS OFFERS PG COURSE IN HISTOPHYSIOLOGY IN JUNE**

The University of Illinois College of Dentistry will offer a postgraduate course titled "Current Histophysiology for the General Practitioner," June 26-27.

The course is designed to give the general practitioner a refresher program in histophysiology, so that terminology and the latest concepts in current literature will be clarified in relation to their application to his daily practice. Lectures, slides, microscope analysis and current articles in dental journals will be utilized during the two-day program.

Applications are available at the Division of Postgraduate Education, University of Illinois College of Dentistry, 808 S. Wood St., Chicago 12.

All alumni and allied dental groups are cordially invited to the—

## Northwest Side

It is a refreshing thought indeed to think of the coming summer season after a long and chilly winter. It seems that this year there are only two seasons—winter and summer with the spring season being somewhat lost between the two. The calendar may have given a chronological order for the seasons but the weather certainly did not follow this pattern. However it may be, we certainly look forward with great anticipation to the coming summer season and the many fine days that will be available to us for pursuit of some leisure time activities. . . . Alf Altern was not one of those who let the contrary weather sway him in the least. Alf recently returned from his Wisconsin hide-away where he was busy planting some new saplings in order to do his part in refreshing some of Wisconsin's natural beauty for the years ahead. . . . Another sign that spring was not completely forgotten was the engagement of J. J. Applebaum's daughter Lynne to Geffry Garfield on Friday, April 21st. Both at present are attending Roosevelt University where Lynne is majoring in Education and Geffry is majoring in Psychology. . . . The Bonus family is having a double birthday celebration this month. It so happens that Vince's wife Virginia and their son, Dr. Robert Bonus, both celebrated birthdays on May 2nd and this certainly is a pleasant coincidence of which the whole Bonus family is justly proud. Dr. Robert Bonus at present is a resident surgeon at the Evanston hospital. . . . Another bright spot in the news is to report that Lee Schwartz is recuperating after his recent eye injury. We all missed Lee at the last meeting of the Northwest Side branch and to all those who missed him we can say that he is doing quite well and has firmly resolved to wear his safety glasses where the need arises. . . . The Dental Arts Club recently held its annual Monte Carlo night at the

Chicago Society Club on Tuesday, April 25th. It was a really gala affair for all those who attended and the spirit of friendliness was very apparent among the members even though the stakes were high at the various tables, although with stage money. One could really afford to be a big-time gambler with that kind of money. The prizes that were offered were by no means bogus. A really good time was had by all. . . . I am always looking for a bit of news so while roaming about I learned that Ted Weclaw, our recent past-President, was going to Texas this month to the state meeting of the Academy of General Dentistry in Houston. . . . I hope that all members are by now fully aware of a change in the date of Ladies' Nite to Wednesday, June 7th, at the Chanteclair. In a discussion with Vince Bonus, the Ladies' Nite chairman, it was brought out that Vince would very much like to receive your checks for the Ladies' Nite reservations as soon as possible because many preparations have to be made as well as commitments for food and entertainment. So, why not try to make Vince's task a little more pleasant by phoning in for those reservations today, the number is BE 7-8281 and for those who are mailing their checks the address is: Vincent L. Bonus, D.D.S., 5511 W. North Ave., Chicago 39, Illinois. More need not be said about this because I believe the response should be tremendous. Remember Ladies' Nite, June 7th. —*Chester L. Jasick, Branch Correspondent.*

## West Side

Final word to our golfers is to be prepared for a swell time and have the four-somes set. This is it! Off we go to the Mount Prospect Country Club for a real West Side get-together. For final information ask any of the officers of the branch and you'll get all the info with

**S**ome dentists like to have their Manhattan gowns laundered at home . . . while others 'send them out.' Our new ARNEL jackets require NO special laundering, can be washed by hand or machine. And only "once over lightly" with an iron is required. No starch or bleach is used. They're GUARANTEED against shrinkage or fusing. They keep their good looks through countless wearings and washings. They're crease resistant. They're comfortable-to-the-skin. They "breathe." What's ARNEL? A fine triacetate made by the Celanese Corp. . . . in white, beige, blue, pink, maize and green. Keep looking your best and keep cool at the same time . . . the higher temperatures are headed this way. A phone call (to WA 2-0283) will provide details, a free catalog, or a visit from our salesman.

*Manhattan*  
UNIFORM COMPANY

509 SOUTH WABASH AVENUE • CHICAGO 5, ILLINOIS

regard to time, place, tickets, etc. Look for the advertisement in this issue of the FORTNIGHTLY. . . . This time of the year for the past numerous years there has always been a man in charge of all the arrangements and this year it seems time to thank both Al Sells and Josh Vission for their most sincere efforts in managing this golf outing. There is an official Chairman for this outing but it usually follows that along the line Al and Josh are called upon to give advice and lend their touch to the affair. This year is no exception and as usual with the efforts of these gentlemen it's assured that there will be a grand time and prizes for practically everyone. . . . There has been considerable favorable comment on the closed-circuit television program sponsored by the Procter and Gamble Company at the Uptown and Capitol theaters in Chicago and other theaters in various parts of the country. Subjects such as Periodontia, Endodontia and Denture Construction were included in the program. The West Side was well repre-

sented by many members who helped make up part of the good attendance at these theaters. . . . Talked to our President Walter Zipprich and from all indications everything is set for the golf outing, so let's see you all there for a wonderful day filled with good golf and good fellowship. . . . See you at the outing.—Andrew J. Kelleher, Branch Correspondent.

## Englewood

1 May, 1961 (my deadline). The Reds haven't got too much to celebrate. Castro awarded the Russian peace medal for executing five-hundred enemies of the state and I'm just about shot down too. In good old Air Force fashion I'm putting in my May Day call. Attention, all reporters—you are about to get a call. I'm equipped with my green shade and pen in hand with nothing too much to write about. Using the power of positive thinking, I'm hoping to come up with something to edit for your gratification. . . . Star reporter, Mal Brooks, has just informed me of some sad news. A. R. Kokes was slashed by an assailant at 110th and Vincennes on April 17th. Four transfusions and seventy-two stitches were required to put him in one piece again. It seems a pity those switch-blade boys just don't grow up and act like civilized members of the citizenry. This might be asking too much of their intelligence, though. . . . John Heinz lost his older brother on the 17th day of April. The branch extends its condolences. . . . The "fatal fifteenth," altho two weeks have passed, is long to be remembered by a few who are still singing the blues. Bob Unger reports he is completely cleaned out, and with six deductions, I can't understand it. He should take a look at the unmarried tax schedule sometime. To celebrate the filing of his income tax form, his wife went out and bought herself a fur coat. He hasn't decided yet whether the tax or the coat broke him. . . . Speaking of tax deductions—attention, all moaners and we will try to give you a few tips for next year. . . . The

State convention is to be well attended by Englewoodians Mathews, Davido, Solfronk, Unger, Wagner, Werre, Kanchier, Straub, Hayes, Kazen and yours truly, to mention a few. Where are the rest of you loyal dues-paying members? Remember the extra hours will put you in the 75% bracket. . . . Last seminar of CDS given by Tom Lawrence was attended by Vermeulen (Sr. and Jr.), Solfronk, Melcarek, Raczynski and Mathews. . . . Dental Arts golf outing on May 17th—prizes, fellowship and, oh, yes, golf, if it doesn't rain. Chet Bochenek is taking everyone on for a buck a hole. . . . Arcolian Dinner-Dance was attended by Unger and Morganelli. Understand Unger and Blechman, from West Suburban, were the only non-maffia members present. . . . South Division of Loyola Fulfillment Fund held their kickoff dinner on April 28th. Steve Radochonski is the illustrious Chairman of this noble project. . . . Davido is building a space-age dental office this summer. Hear he is going to install a sputnik which shoots any dissatisfied denture patients into space. . . . John Theodorou was down in Florida taking another course (???) from Page. What a way to get a suntan and still have an income tax deduction. Gus Solfronk also is back from Florida with a suntan on the top of his head and money under his belt. I understand he went down to collect the rents on all his holdings. Bill Cruikshank also was down there. . . . I just became a new uncle, as did my father become a grandfather, for the third time. At least he owns up to it, Dr. Kanchier. Can an uncle use a nephew at least as a partial deduction? . . . My T-Bird is still clanking and rattling down the street, even after the thousand-mile adjustment. That's the last time I'm going to take Davido's and Sharpe's advice on cars. It still has me stumped how I can use this as a deduction—business entertainment maybe?? And those bucket seats are inconvenient. Does anyone have any suggestions?? . . . So now if somebody weeps next year about their income tax, remember I tried my little bit to help you out. And if these

All Chicago Dental Society members, guests, and allied dental groups are cordially invited to . . .

## KENWOOD- HYDE PARK BRANCH

# *Annual Golf Outing*

**Wednesday  
JUNE 7**

**PALOS COUNTRY CLUB**  
**Orland Park, Illinois**  
(131st St. & Southwest Highway)

**Delicious prime-rib-of-beef  
dinner**

**Prizes for everyone**

**GOLF — \$4.00**

**DINNER — \$6.00**

For information and reservations . . .

**H. M. Stackler**  
or  
**Bob Herzberg**  
SO 8-3101

suggestions don't get you in trouble with Uncle Sam, just don't bother about filing your income tax form. . . . New member B. Kostrubala was out to the last meeting, and was impressed. Heard from the local druggists that he is swamping them with prescriptions. He must have learned the lesson well. Saw old member Valentinas out to a meeting several months ago, but haven't seen him since. Learned too much at that one, Walt? . . . Learned through the grapevine that E. Piech is joining us on Pulaski Road. Ed, we have a standing rule—to set up shop out here it is mandatory to attend branch meetings and at least one or two educational courses a year. Pete Dado and Ed Strenk, you are getting a little lax in this respect also. How about your new associate, Ed? We haven't met him yet. . . . Remember our golf outing is coming up shortly and I want to remind *only* those that shoot above a hundred to come. There must be some legal way I can win the branch championship. — *Assistant to "Wittle Wo," R. A. Urban.*

## West Suburban

Although our 1960-61 year has just about terminated, we still find a number of scheduled events listed on our calendar. On May 17th, the much awaited West Suburban Golf Tourney will take place at Nordic Hills. George Welk and Bill Aquilino have worked hard to assure all a good time at this affair, so let us give them our full support by turning out

for a day of sport and enjoyment. . . . On Monday, June 5th, 12 noon, at the Oak Park Club, Round Table will hold its final meeting of the year, their speaker Dr. R. Rudnick will talk on "New and Old Concepts in Fixed Partial Denture Prosthesis." . . . Oak Leaf Dental Study Group meeting at Oak Park Y.M.C.A., 12 noon, May 19th, will feature Dr. Robert McDonald talking on Preparation with Airotor and Cementation of Gold Inlay. . . . Also on the agenda is a fine affair sponsored by Far West Study Club, its annual "Monte Carlo Night" which will fall on May 23rd this year; for further information contact Hugh Ryan, chairman of this extravaganza. . . . It was most gratifying to see the tremendous representation of West Suburban at the national closed-circuit television premiere. Needless to say, it is most obvious that with the acceptance witnessed, we can be certain that more and more of this system of postgraduate teaching will be utilized thus exposing to every dentist the opportunity for betterment and progress in this great profession. . . . Our congratulations to Merrill Shepro on the efforts put forth in presenting to a group of 25 to 30 men a most interesting two-day course in hospital dental service at the Community Memorial Hospital of LaGrange. . . . Congratulations also to Bob Atterbury on being elected secretary-treasurer to the Chicago Academy of Clinical Hypnosis. . . . At this time, I would like to thank most heartily all those who made it possible for me to present you with these "news bits"

SINCE 1902

ADERER GOLDS

Orthodontic and Prosthetic

DEarborn 2-3495

JULIUS ADERER, INC.

5 SOUTH WABASH AVE., CHICAGO 3, ILL.

throughout the past year. A special thanks to past-President Joe Brophy for appointing me to this position and to Ed Kritzke, Dom Catrambone, Jim Ridlen, Bill Aquilino, Marshall Marshall, Harry Brown, Raleigh Williams, John Frymark, Wes Olsen, Bob Atterbury, LeRoy Sanden, Olaf Opdahl, B. R. Jones, Ev Walters, Bill Tolar, Bob Pollock, and all others who have contributed in making the column possible. And to our "Bits of Wisdom Department," a thanks to "Perry Dontist" who suggests to all, the proverb, "Fear less, have more; eat less, chew more; whine less, breathe more; talk less, say more; hate less, love more; and all good things are yours."—*Joseph V. Discipio, Branch Correspondent.*

## Kenwood-Hyde Park

Well, it's time for the finalé. I would be telling a "white lie" to say that I was sorry, yet I am very happy to have had the opportunity to serve as branch correspondent for it was very enlightening and afforded the privilege of getting to know the members of Kenwood-Hyde Park a little better. At this time may I thank each one who was kind enough to inform me of news about himself and his friends. I especially want to thank Larry Johnson; how he is able to "dig up" all the news is beyond my understanding; without him I would have been lost. Thanks a million, Larry. . . . A DATE TO REMEMBER: Kenwood-Hyde Park's annual golf outing, open to all golfers and non-golfers, at Palos Country Club, located at Southwest Highway and

131st Street, on Wednesday, June 7. Plan to be there. Mark off the date *now*. You will hear more about this—only you can make this a huge success. . . . Ben Gans will lecture to the Dental Staff at St. Francis Hospital in Blue Island; his topic will be "Surgical Aspects of the Preparation of the Mouth for Dentures." On Wednesday, April 19th, Dr. Gans lectured at the Northern Indiana Dental Society at Valparaiso University; his topic was "Recent Advances in Management of Odontogenic Infection." That's all for now. Keep well and happy.—*Morton J. Fireman, Branch Correspondent.*

## North Side

THE HEARTBREAK AND LOSS IS GREAT. . . . Our sincere and heartfelt sympathies to Sam Goffen on the loss of his beloved wife. April 24th saw the passing of Eli Luber, whose smiling face will be greatly missed. I like to think that the Lord looked down on earth and saw all the turmoil . . . and then He saw the kind and gentle Eli and asked him to join Him to spread good cheer in the Heavens. On April 26th another North Side member was taken from our midst, Robert J. Heurlin, Class of '25, Loyola. To their bereaved families all North Side members extend their condolences. . . . And for pleasure and recreation put aside Wednesday, June 14th, for our North Side Annual Golf Outing to be held at Mohawk Country Club. More details in the coming issues. . . . Adolph Schneider,

*(Continued on page 30)*

The ASCHER DENTAL SUPPLY Co., is pleased to announce the addition of ARNOLD TOPEL, JAMES HOBSON, JR., and JOHN FEELEY to its sales and equipment departments.

Arnold Topel and James Hobson, Jr. will take over territories in and around Chicago, to further service the Chicagoland area, as has been the company policy for the last 40 years. Mr. John Feeley will specialize in equipment sales and layouts; for which task he has had over 5 years' experience.

The ASCHER DENTAL SUPPLY Co., will soon celebrate its third anniversary in its present location at 4200 West Lawrence Avenue.

## EDITORIAL

(Continued from page 13)

Members of the Commission who were present at Friday's meeting were Ex-Senator *George P. Johns*, Decatur; Representative *W. J. McDonald*, Murphysboro; Representative *James D. Carrigan*, Peoria; Senator *Grindle*, Herrin; Senator *Maher*, Chicago; Representative *Leo Pfeffer*, Seymour (sub-Committee chairman); *Mr. Walsh*, Bloomington; *Dr. Harlan English*, Danville (M. D.); *Dr. John F. Sheehan*, Stritch School of Medicine; *Dr. Joseph Lynn*, Chiropractor; and *Dr. Richard MacBain*, President, Chicago College of Osteopathy.

*Dr. MacBain was the only attending member of the Medical Practice Act Commission who voted against the recommendations of the sub-Committee!* I understand that a meeting of the Public Policy Committee has been called during our Annual Meeting next week in Peoria. Shortly after that meeting I am sure that directives will be sent from Dr. Clopper's office to contact dentists and other interested persons relative to the course of action which we are to take. In any event, we will have a hard battle in the Legislature and we will win only what we fight for!

Only one member of the Medical Practice Act Commission in attendance, Dr. Richard MacBain, opposed the adoption of the recommendations. It would be the writer's judgment that the members could not have been well informed as to the inherent dangers to the health of the public.

So, I say once again, arm yourself with complete information and be ready to inform and motivate your legislators, for *you are wanted* in this joint defensive effort to safeguard the dental health of the people of Illinois.

## Regular Monthly Meeting of the Chicago Dental Society

April 18, 1961  
Conrad Hilton Hotel

**P**resident James N. Lynch called the meeting to order at 8:15 p.m. A motion was made and seconded to dispense with reading the minutes of the January meeting. A motion was made and seconded to approve the minutes as published in the March 15th issue of the FORTNIGHTLY REVIEW.

### New Business:

The Chair requested the Secretary to cast a unanimous ballot for the following candidates:

Robert F. Tuck, President-Elect  
Edward F. Kritzke, Vice-President  
Gerson M. Gould, Secretary  
Robert L. Kreiner, Treasurer

The Secretary cast and recorded the unanimous ballot.

### Special Program:

Dr. Graham Davies, Chairman of the Monthly Meeting Program Committee, introduced the speaker, Mr. Thomas H. Lawrence of Kansas City, Missouri, a Management Consultant. Mr. Lawrence gave a very fine talk on Motivation, Communications and Patient Relations.

Following the talk Dr. Davies announced the All-Day Postgraduate Seminar to be held Wednesday, April 19th, in Waldorf Room.

The meeting adjourned at 10:00 p.m.  
Robert F. Tuck, Secretary

## *New* X-CENTRIC ARTICULATOR

### SOME OF ITS FEATURES:

1. Fossa is in upper part of articulator, axis in lower member, eliminating mechanical errors.
2. Can receive hinge axis transfer or facebow.
3. Will accept any protrusive bites.
4. Will accept any lateral bites in functional positions.
5. Will accept any tracings.
6. All positions are recorded and articulator can be set to any of the recorded positions.
7. Can be used with the EQUI-DAPTOR.

# CENTRALS

## *and the Midwest Esthetics Forum*

The upper centrals in a Swissedenture impart more of the Dentogenic principles than any of the other anterior teeth. These same principles can be applied to our cast partial and crown-and-bridge departments. For example, by flaring the centrals at the distal we suggest vigor, or for masculinity we square them. Providing the appearance of proper age level is determined by custom grinding of the incisal edge. Depending on the particular

patient's personality, we might bring the incisal edge of one central forward to create a harsh appearance.

The extent to which we use the above concepts—and the occasions upon which we use them—is simply a matter of knowledge acquired through training, through long practical experience, and through reviewing cases at our monthly group meetings.

**For Rent:** Except Tuesday and Friday. Two-chair dental office complete, in large suite, with continuous receptionist in Marshall Field Annex Bldg. Air-conditioned. See Mr. Middleton—Suite 1206—or call ST 2-1305.

#### WANTED TO PURCHASE

**Wanted to Purchase:** Dental office and good will. Loop only. Address J-16, The Fortnightly Review of the Chicago Dental Society.

## Practice

## Without PBP?

It's possible, of course, to practice dentistry without PBP, but why try? I built my practice with PBP. I treated each patient as a person, not a case—presenting dentistry in a manner that brought acceptance to my recommendations. Patients readily referred family and friends to me.

Today, I enjoy the fruits of a successful practice. Mine is a happy, efficiently run practice. I enjoy life as well as practicing dentistry. I enjoy my home, more time with my family, vacations and outside activities. Enjoy the good life, too.

Dental Building Fund. He has presented clinics on children's dentistry before many local, state and national meetings.

Paul lives in Lincolnwood where he shares his very busy life with his wife, Hilda; their lovely daughter, Joanne; and son, Peter, who plans to enter pre-dent school this fall. It must be a wonderful feeling to have a son follow in your footsteps.

Succeeding Ed Kritzke as Director from West Suburban is a young man, Dr. Robert N. Price of Westchester. After completing his preliminary education and his pre-dent work, Bob entered Northwestern University Dental School from where he was graduated in 1945. He then entered general practice in the west suburban area until Uncle Sam called him to service in the Air Force Dental Corps. After his discharge from service he again entered general practice in Westchester where he now also resides. He has served on many committees of the West Suburban Branch, and is a past-President of Oak Leaf Dental Research Group. He is a member of the Academy of Practice Administration.

His many activities in his community and society are shared by his fine family of Mrs. Price and their three daughters. His youthful enthusiasm should prove stimulating to the Board.

As Director from the Northwest Side Branch Casimir J. Rogalski will succeed Joe Ullis. Dr. Rogalski needs no introduc-

tion for he has served on many Chicago Dental Society committees, including the Chairmanship of the General Arrangements Committee of the Midwinter Meeting. Most recently he has served as a member of the Ethics Committee. In this branch he has been very active in committee work, as well as having been elected to all offices including the presidency. He has also found time for work with the Dental Arts Club and the American Academy of General Dentistry.

Cas received his preparatory education in Chicago and was graduated from the Chicago College of Dental Surgery, Loyola University, in 1928. He is very active in the alumni affairs of his alma mater and is a member of Xi Psi Phi fraternity. He takes great interest in church and civic affairs in his community and is a devoted family man, sharing his many activities with his good wife and children.

### Applicant for Membership

KAMINSKI, EDWARD F. (Illinois 1960) Service, Fort Bliss, Texas. Endorsed by A. J. Skupa and Donald L. McElroy.

*A visitor stopped at a club room to pass the time of day and noticed three men and a dog playing draw poker. "Sure must be a smart dog," commented the stranger.*

*"Naw, he ain't so smart," piped up one of the trio. "Everytime he gets a good hand he wags his tail."*

# NEWS OF THE BRANCHES

(Continued from page 21)

M.D., D.D.S., has been an avid reader of our North Side column for which I am very appreciative. He wrote me of the excellent results he has had in "restoring bony tissues around teeth where only the soft tissue remained and placed bridges thereon that were stable for many years." Dr. Schneider is Chairman of the Board of Trustees of the American Association for Medical-Physical Research. I think our readers would like to hear why his organization has an Anti-Fluoridation Committee! . . . Irv Stone has just returned from Puerto Rico where he gave a series of lectures to the Dental School. He is now off for the U. of Kansas, Topeka and Fort Leavenworth. Be careful Irv, I understand that Leavenworth likes to keep controversial periodontists! . . . The Chubins have competition! Grandfather I. S. Jacobson and Father Bailey Jacobson are right proud of their baby boy. Bailey is associated with Shelly Rosenstein whose orthodontic practice is at 3333 Peterson. Good luck with paternity and practice! . . . The North Side Committee of Loyola U. School of Dentistry Building Fund had their Kickoff Dinner on April 18th at the Country Store. Father Vaughan, Chaplain of the Dental School and Max Chubin presented the blessings before dinner. Dean William P. Schoen, Chairman Walter Buchmann and North Side Chairman Paul Brown formed a panel of experts. It was a pleasure to see so many loyal alumni, all of whose names were men-

tioned in the April 15th issue, present to start the Fund Drive! . . . David Sackheim is finally back in his office after he ran into a stalled truck while driving to Florida last December. He was hospitalized for three months with a broken kneecap, internal injuries and also required dental work because he went through the windshield. He says that, "worst of all, my new car was wrecked!" . . . Jules Berman is enjoying his new offices at 5962 Lincoln. . . . Rube Kadens is an expectant grandfather again. . . . Hewett Williams attended the Orthodontic Meeting in Denver. . . . We are happy to see Harry Greene fully recovered from his recent bout with bronchitis. . . . Earl Elman is instituting a research program on the damaging effect of gum chewing on the TMJ and associated tissues. Much evidence is being uncovered showing that TMJ pains, clicking and restrictions are showing up in rabid gum-chewing teenagers! Anyone wishing to offer evidence or join the program may reach Earl at AM 2-4242. . . . Ron Rothenberg, Paul Brown, Olga Horwitz, Mark Mendelsohn and Aubrey Lauterstein heard Shelly Rosenstein as one of the clinicians during the annual seminar of the Illinois Unit of the American Society of Dentistry for Children held in Rockton, Illinois, on April 12th and 13th. Aubrey, our North Side Program Chairman, broke into national print when his editorial "The Towel (turkish)" was printed in the *A.S.D.C. Journal*. . . . It was good to see the large turnout to the Television Dental Clinics on April 26th. Let's hope there are more of the same!—Paul Brown.

# THE PARADOX OF ORAL CANCER

---

In 1961, some 13,300 cases of oral cancer will be diagnosed. Of these, only 5,000 will be cured! It is a tragic paradox that the cure rate should be so low for a cancer that is accessible and comparatively easy to detect in its early and curable stages.

Since the patient himself is often not alerted to oral cancer by pain or even by a danger signal, the dentist's responsibility is crucial. In his routine examinations of the patient's oral cavity, he has the opportunity to recognize asymptomatic lesions that may be early, curable cancer.

More and more patients are having periodic dental checkups. Their number must increase if oral cancer is to be better controlled. The American Cancer Society's public and professional educational efforts encourage earlier case findings by stressing the importance of regular health checkups and professional consultations when symptoms develop. Implementing these efforts are films, publications, exhibits, speakers. Information may be obtained at local units of the

## UNSURPASSED ANESTHESIA TO SUIT THE PROCEDURE

**CARBOCAINE** Trade Name  
HCl 2%

with NEO-COBEFRIN 1:20,000

Brand of levo-nordefrin

### FOR LONGER LASTING ANESTHESIA in

- oral and periodontal surgery
- quadrant dentistry
- pulp canal work

Millions of injections in private dental practice as well as large scale clinical trials have proven the margin of safety and effectiveness of CARBOCAINE HCl.

The established 2% solution with NEO-COBEFRIN has demonstrated a wide margin of safety and is well tolerated as an oral local anesthetic. Very rapid onset produces deep, penetrating anesthesia of long duration. In both infiltration and regional anesthesia, there has been practically no evidence of failure.

CARBOCAINE with vasoconstrictor provides other advantages including ready diffusion into hard and soft tissues for control of pain.

It is particularly indicated in periodontal surgery when some degree of hemostasis is desired to produce a dry field. Because of its distinctive molecule, CARBOCAINE does not provoke allergic responses in patients sensitized to procaine.

**CARBOCAINE** Trade Name  
HCl 3%

without vasoconstrictor

### FOR SHORTER ACTING ANESTHESIA in

- those restorative procedures which high-speed techniques have shortened so dramatically
- simple extractions
- children's dentistry

One of the major advantages of new CARBOCAINE 3% without vasoconstrictor is that it produces deep anesthesia of relatively short duration by virtue of its own distinct constricting ability. It reduces soft tissue anesthesia by as much as one hour, a distinct advantage today in children's dentistry and in restorative procedures.

This new formulation is possible because CARBOCAINE is unique among dental anesthetics in that it consistently produces satisfactory anesthesia without the need of a potentiating vasoconstrictor. CARBOCAINE 3% without a vasoconstrictor has proven well tolerated. It achieves shorter duration anesthesia but is equally as effective as CARBOCAINE 2% with NEO-COBEFRIN, and produces significantly fast onset of anesthesia.

In simple extractions, CARBOCAINE 3% avoids the potential hazard of delayed hemorrhage and aids in the prevention of alveolitis since natural bleeding ensues immediately. It is also valuable in periodontal scaling where normal bleeding is desired.

## SUCCESSFUL PRACTICES NEED BOTH!

**COOK-WAITE**

and samples on request.

CARBOCAINE AND NEO-COBEFRIN ARE THE TRADEMARKS (REG. U. S. PAT. OFF.) OF STERLING DRUG INC.

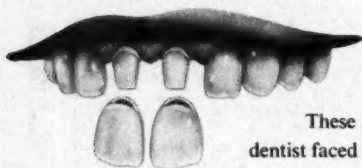

**BEFORE**  

---

**and AFTER**

*How it was  
 accomplished . . .*

Neat, clean, sharp and healthy.

These are priceless assets and this patient's dentist faced up to the "Magnificent Challenge" of personality preservation by simply preparing two broken down centrals for vacuum fired porcelain jacket crowns.

As always it is how it is done that makes the difference between an average passable result in Dentistry or a creation of perfection.

Through practice and with modern equipment dentists are now able to make, as daily routine, neat porcelain jacket crown preparations such as shown here.

We here at Kramer's have developed our skills and equipment also so we can match the fine work of the dentist and this does make possible those priceless dental restorations your patients hope to get.
